

INTERNATIONAL SCHOOL
AMERICAN HIGH SCHOOL DIPLOMA
AND COLLEGE PREPARATION
PROGRAMME

International Program for young tennis players

- ❖ Our programme prepares 14 – 20 year olds to gain their High School Diploma and prepare for entrance into College or University.
- ❖ It delivers structured independent study, combined with face to face teaching, designed around a student's tennis training.
- ❖ Home study resources are provided by The University of Nebraska, Lincoln, and face to face teaching by the Ceic International School, working as their proctor.

Key Benefits of the Program

- * Training, practice, auditions, travel, performances — who has time for traditional high school?
- * The UNL Independent Study High School has helped hundreds of athletes and artists complete their education while pursuing careers in athletics or the performing arts. Our flexible, self-paced program allows you to study when and where it's most convenient for you. We work around training schedules and tournaments to keep your studies on track.
- * Some students choose to earn their entire [diploma](#) with us. Other students take just one or two online courses then [transfer credit](#) back to their local school. Whatever arrangement fits your needs, we can help get you to the next level.

INDEPENDENT STUDY
HIGH SCHOOL

The Program

- * Graduates of our accredited high school receive the knowledge and experience, plus the credentials, they need to succeed in the college or university of their choice. Our independent study format uniquely prepares students for college.

Students gain valuable skills:

- * Time management
 - * Self reliance
 - * Critical thinking
 - * Persistence
 - * Organization
 - * Leadership
 - * Accountability
- * These skills help lay the foundation for success in college and beyond. And, graduates of our school receive a highly respected, accredited high school diploma and official transcripts upon completion of their course.

Accredited High School Diploma

Flexible Diploma Options

- * Transfer high school or home school credits, or take all of your courses through Independent Study High School.
- * Earn your diploma anytime of the year, from anywhere in the world.
- * No age or grade requirements to begin.

Prepares You for College

- * Earn an accredited high school diploma that meets college admission standards.
- * Our graduates have been accepted to exceptional universities, including Stanford, Yale, Penn State, and Purdue.
- * Our students' ACT and SAT scores exceed national average scores.

Preparation for College

College-Prep or General Curriculum

- * You can follow a college preparatory or general studies curriculum. Both require a minimum of 200 credit hours (20 units) and the same subject areas.
- * College-bound students should follow the college-prep curriculum. These courses involve more writing assignments to prepare you for the writing skills expected at college. The course sequencing of the college-prep curriculum meets minimum admissions requirements of most colleges and universities.

How do I enrol my child?

- ❖ Submit student details, including academic history, to CEIC and a personal meeting with the director to discuss the best option for each student. Students may have previous studies approved by the High School Programme to start from 10th , 11th or 12th grade accordingly.
- ❖ Pay the registration fee and deposit, and agree a payment scheme and schedule.
- ❖ Accept the terms and conditions.

NB

- ❖ A good level of English is required, as all course materials and classes will be delivered in English.
- ❖ CEIC can provide additional support to students whose English needs improvement.
